DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 2, and 4 are rejected under 35 U.S.C. 102(b) as being anticipated by Seiichi '634. Seiichi shows a unitary container (Fig. 3) comprising a body (1) having a central top opening, a cover (3) having a flat side with projections (6), and an inner cover (8).

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 3 is rejected under 35 U.S.C. 103(a) as being unpatentable over Seiichi in view of Per-Lee '455. Seiichi shows all the structural and functional limitations of the invention as set forth in the previous paragraphs of this office action except for the side cover for the projections. Per-lee shows a massaging brush having a cover (34). It would have been obvious to incorporate a brush cover in Seiichi because covers are old and well known for the purpose of isolating the bristles for the purpose of protection from damage as well as sanitation for hygiene.
